Profile

Data-driven sales and operations leader with 10+ years transforming insights into impact, optimizing supply chains, and driving efficiency through trend analysis and automation. Expert in BI tools (Power BI, Tableau, Excel) and SQL for building dashboards and reports. Fluent in Portuguese, collaborative leader eager to build multi-agent workflows and RAG processes for platforms like Reddit, contributing to sustainable tech growth in Portugal and beyond.

Skills

- **Technical:** SQL (Advanced), BigQuery/Druid (Exploring), Python, Power BI, Tableau, Excel (Advanced), Oracle, AI Prompt Engineering, LLM Optimization, RAG Frameworks, Apache Airflow, REST API Integrations, Google AI Tools
- **Professional:** Data Analytics, Market Research/M Measurement, Consumer Behavior Insights, Brand Strategy, Supply Chain Optimization, Lean Six Sigma, Project Management, Renewable Energy Sales, Digital Advertising
- **Languages:** Portuguese (Fluent), Spanish (Fluent), English (Native)

Projects (Examples 9/2025)

- Sales Trends Dashboard**: Developed interactive Power BI dashboard analyzing sample sales data, identifying consumer patterns (e.g., enhanced targeting strategies). [Link to GitHub/Shareable File]
- SQL Data Pipeline Simulation**: Created SQL scripts for ETL processes, aggregating KPIs with JOINS and subqueries (e.g., forecasting models saving \$32K at Nu Skin). [GitHub Repo]
- AI Prompt Optimization Framework**: Leveraged Google AI certs to build a prototype for evaluating LLM outputs in trend detection (In Progress).
- RAG & Multi-Agent Orchestration App**: Developing framework for retrieval-augmented generation using Hugging Face and CrewAI to automate insights from sample datasets (Planned for Q1 2026).
